The second secon				
	The following information was obtained on Soviet troops in Kagran (1 49/X 49):			
	1. The main entrance to the old Wagramer Strasse Kaserne faces Wintzigerodestrasse. There are turnpike and gate guards wearing red-bordered black epaulets with artillery insignia. Motor vehicles entering the large parking lot south and southeast of the kaserne move via Magdeburger Strasse. The following weapons and vehicles were observed in a section of the parking lot which could be overlooked from the outside:			
	a. Seven guns with four rubber-tired wheels each, estimated caliber between 80 and 100 mm, horizontally laid medium-long barrels without muzzle brakes, large gun shield. One three-axle truck was parked behind each gun.			
	b. Seven long-barreled guns with four rubber-tired wheels each, caliber about 100 mm, muzzle brake, one cylinder above and two cylinders under the barrels, no gun shields. The barrels were upright and rose above the cantonment buildings situated closely behind. One three-axle truck was parked behind each gun. (The guns resembled German 88-mm AA guns).			
	c. Six to eight armored vehicles were stored in an open garage (no details could be observed).			
	d. One heavy tank, covered with tarpaulin, was observed from a distance of about 200 meters. Its gun barrel with muzzle brake projected over the nose by two thirds of its length.			
	e. Two cunvas-covered armored vehicles were stored in a small shed.			
25X1				
25X1	There was very little motor traffic.  CLASSIFICATION SUCCESSIFICATION SUCC			
CONFIDE	This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 10 October 1978 from the Director of Communication to the Archivist of the Shite! Slates.  Approved For Release 2003/08/11: CIA-RDP82-00457R604 2003/0850
